

PRODUCT LINE CARD

Nirvana Waterworks is an employee owned and operated local Waterworks Distribution Company. We're your one stop shop when it comes to PVC and HDPE products and services.

What was initially viewed as a road block, quickly became a strength for Nirvana. The lack of access to already established manufacturers and suppliers within the market forced us to seek out new relationships and evaluate the current products in the market. The experience has created many more friendships, partnerships and opportunities for growth.

You, the customer is our focus. We believe in a healthy Manitoba by creating more jobs in the province, community well being and keeping all the dollars in the local economy. Too many large corporations take the earnings out of province, or worse, out of the country.

Established in 2019, the vision of Nirvana is to offer a unique and improved buying experience. Our staff strives to show value by providing expert information, timely response and a family feel for each and every phone call or visit.
